BIO

GIANNALBERTO IS A PARTNER IN THE PUBLIC LAW, REGULATORY & COMPETITION GROUP.

Giannalberto provides legal advice to Italian and foreign companies on administrative law, energy law, public procurement, transport and infrastructure, with particular focus on the rail sector.

As administrative law specialist, he has acquired experience in the energy market (both renewables and Oil&Gas production), environmental law and public contracts (especially for port works).

He assists on an ongoing basis the second largest operator in Italy of gas transport pipelines, handling all contractual and administrative regulatory aspects.

Furthermore, Giannalberto provides judicial and extra-judicial assistance to international companies operating public services (transports, including aviation, gas distribution and water service).

In 2023, Giannalberto was ranked “Key Lawyer” in the Energy sector and in Dispute Resolution by Legal500 EMEA.

In addition to Italian, Giannalberto speaks English.

EXPERIENCE

WATSON FARLEY & WILLIAMS

Atlante on its acquisition of Ressler's e-mobility business unit, representing a key turning point for e-mobility in Northern Italy and a boost towards accelerating the energy transition in the automotive sector. The deal's closing remains subject to standard conditions precedents.

Beyfin Group on the bidding process to obtain funds as part of the 'Experimentation on the use of hydrogen in road transport' auction outlined in Italy's Recovery and Resilience Plan (PNRR).

Società Gasdotti Italia – SGI in the project to build a Hydrogen Valley in Lazio called 'HELIOS, the largest green hydrogen production hub (400 tonnes per year) in central Italy and SGI's first Hydrogen Valley project.

Po Valley Energy on its agreement to supply an energy major with gas from its Podere Maiar-1 production plant in the Selva Malvezzi production concession.

Società Esercizio Aeroporto Maremma – SEAM before the Regional Administrative Court of Tuscany in an appeal to recognise the illegality of the Ministry of Infrastructures and Transport, the Ministry of Economy and Finance and the Ministry of Defence's failure to respond to SEAM's application for a concession for the total management of Grosseto airport.
