**SECTORS:** Energy, Mining and Commodities, Oil and Gas, Infrastructure, Power

**SERVICES:** Joint Ventures and Strategic Alliances, Corporate and Acquisition Finance, Mergers and Acquisitions, Corporate and M&A, Project Finance

## BIO

### MERRICK IS A PARTNER IN THE PROJECTS GROUP.

Merrick has an expert understanding of the global energy industry and a history of success in the sector. His practice is focussed on global oil, gas, LNG, refinancing, petrochemical and power project development. He advises on all aspects of energy development projects and transactions, from the granting of upstream concession agreements to the acquisition and disposal of energy assets.

His experience extends to renewable power development and includes geothermal, wind, solar, hydro, waste to power, battery storage, hydrogen and ammonia projects and carbon capture. As a chartered chemical engineer Merrick has spent over 28 years in Asia – including seven in Jakarta – successfully developing major infrastructure projects across the region as well as in the Middle East and Africa.

Merrick is ranked Band 1 in both Chambers & Partners' Global and Asia-Pacific guides for Energy & Natural Resources and is also noted for his work in Indonesia and in the Oil & Gas sector.

## EXPERIENCE

Advised Conrad on all aspects of their development of the Mako gas field in the Natuna Sea, including the sale of gas to Singapore and Batam, the development of offshore facilities, securing gas transportation rights through third party infrastructure, the conversion of a conventional PSC to a gross split PSC and the farm-down of PSC interests.

# WATSON FARLEY & WILLIAMS

Advised Mozambique LNG on all aspects of its long term LNG marketing to buyers in Indonesia, Japan, Thailand, China, India and Europe.

---

Advised Keppel on its acquisition of an interest in the Golar Gimi FLNG project, the Charter of the Golar Gimi to BP and the project financing of the vessel.

---
