Biography:

Alejandro Martínez is an Associate in the Regulatory & Public Law Group in Madrid.

He advises national and international clients on all kind of regulatory, energy law and environmental law matters, focusing on renewable energy projects, such as wind farms and photovoltaic facilities, among others.

Alejandro also has a wide experience advising clients in urban planning issues, such as real estate and urban complexes (commercial, real estate, industrial, etc.), processing of urban planning instruments, consults on compliance with urban planning uses and parameters, administrative and contentious-administrative challenges, etc.

Before joining the Watson Farley & Williams team, Alejandro worked at Spanish law firm Garrigues.
