## **Biography:**

**Annekathrin is a Senior Associate in the Energy and Infrastructure Group.**

Annekathrin specializes in advising on complex infrastructure and energy projects. Project development in such sectors as transport, logistics and real estate are the focus of her activity. She has many years of experience on advising “Greenfield”, “Brownfield” and “Last Mile” projects. She has further advised several logistics companies and other ventures with the project development of numerous logistics and office properties of various types. Annekathrin is known for her solution-oriented approach and has already contributed to a successful realization of many projects.

Annekathrin has a long-standing experience in the logistics sector. Many companies, project developers, logisticians, family offices and asset managers have already benefited from her skills. Her consulting spectrum includes new constructions, redevelopments of existing buildings, leasing of customised facilities, purchase and sale as well as in-house project developments. In addition, Annekathrin advises on public commercial and environmental law, especially project-related construction, and planning law. She also represents her clients in court and different authorities.

Annekathrin has been twice recognized by the “Kanzleimonitor 2021/2022” as one of the top 20 commercial lawyers. Moreover, she came first for public building law, second for public law and third for real estate law.

In addition, in 2021 Annekathrin was awarded by “Best Lawyers” for being one of the best upcoming German lawyers for Building Law.
