### **Biography:**

**Anthony is an Associate in the Public and Regulatory Law team in Paris.**

Anthony's practice focuses on energy and infrastructure projects. He advises on regulation issues related to these sectors and on public contracts matters.

Prior to joining the firm, he worked for two years as a jurist in the legal department of the French national railway company where he gained particular expertise in respect of public procurements (acquisition of works, supplies or services for consideration by means of a public contract; awarding and performance of contracts). He also worked for an international English law firm based in Paris and specialised in the pharmaceutical industry, advising on regulation (market access of medicines and medical devices) and public contracts aspects.

Anthony has a Masters' degree in Public Real Estate law and a University degree in Business Public law.
