Biography:

Jan Michael Schürmann is an Associate in the Energy & Infrastructure team based in Hamburg.

Jan specialises in international and domestic M&A transactions and advises on all matters of corporate law. He is particularly involved in the renewable energy sector, where he focuses on the development, the financing, the acquisition or sale of wind farms (on- and offshore). His clients include German and international companies as well as financial investors, banks and project developers.

Before joining Watson Farley & Williams, Jan gained particular expertise in Distressed M&A and German insolvency law while working for another international law firm as well as for an insolvency administrator during his clerkship.
