LinkedIn profile: <http://es.linkedin.com/pub/rodrigo-berasategui/7/86/477>

Biography:

Rodrigo Berasategui is a Partner in the Finance Group.

He has extensive experience advising on financing energy and infrastructure projects.

With more than 20 years practice expertise, Rodrigo has a broad knowledge advising on transactions involving renewable energy including wind, electric, solar (thermosolar and photovoltaic) and biomass, as well as all types of infrastructure (highways, rails, tramways, ports and hospitals, etc.).

Rodrigo advises a large number of public and private developers, sponsors, financial institutions, multilateral institutions, insurers and specialised funds on the full range of financing schemes, worldwide, including Latin America: project finance, mezzanine loans, corporate and acquisition finance, export and trade finance transactions. He also acts on debt capital market transactions such as EMTN programmes and green and project bonds.

International legal directories Chambers Europe, Chambers Global and IFLR1000 recommend Rodrigo as a leading lawyer for project finance and energy and natural resources, citing him as a “excellent in all respects”, “one of the strongest in the field” being a “commercially-oriented lawyer with a focus on solving problems.”
