Biography:

Sebastian is an Associate in the Regulatory, Public Law & Competition group.

His practice focuses on the areas of infrastructure, IT and health. Sebastian advises on complex legal issues in the area of public commercial law, particularly in the focus areas of economic administration, municipal economic law, public procurement law and state aid law, in each case also at the interface with civil law issues.

He specialises in the structuring and design of public procurement procedures as well as projects of the public sector and companies in the area of infrastructure, digitalisation and technically complex procurement projects. In this context, he provides comprehensive advice through the preparation of expert opinions, statements and contracts.

From his location in Frankfurt, Sebastian also advises companies and investors on public law issues, including in the context of transactions.
