Biography:

Ursula is a Senior Associate in the Corporate, Energy & Infrastructure group based in Hamburg.

Ursula specialises in M&A transactions, joint ventures, project development transactions and dispute resolution with a particular focus on the energy and infrastructure sector.

Recent transactions include M&A deals in the energy sector, such as the development and acquisition of onshore and offshore wind farms as well as photovoltaic and geothermal energy projects and a cross-border joint venture in the solar energy sector.

Another area of expertise is the structuring of project contracts (in particular, management agreements and maintenance agreements) in the onshore energy sector and advising companies on the resolution of complex disputes, either by arbitration, in common courts or in out-of-court settlements.

In the beginning of 2018, Ursula was seconded to a major German energy supplier for three months to work as an in-house lawyer.

Ursula's clients include German and international investors and project developers.
